| | This change application is based on |
| | the following water rights: |
| | 19-170 (Pine Creek Spring) |
| | 19-171 (Lower Pine Creek Spring) |
| | 19-172 (Upper Pine Creek Spring) |
| | 19-174 (Forces Spring) |
| | 19-277 (Pine Creek) |
| | |
| | These water rights are part of a |
| | supplemental group number 12945, which is |
| | used for the stock watering of 400 |
| | livestock units from January 1 to December |
| | 31, and are limited to 11.20 acre-feet. |
| | |

Water right 19-174 also is used for domestic for six persons, limited to 0.73 acre-feet of water or 1.20 Equivalent Domestic Units.

This change application proposes to add three additional points of diversion and nine new places of use. The other points of diversion and places of use associated with the other water rights in the supplemental group will continue to be used same as they have been used historically. The new point of diversions and new places of use will be used together with all the other water rights in the supplemental group.

The three hereafter points of diversion (two sections of Mormon Gulch Stream and Mormon Gulch Spring) were previously listed as points of diversion under water rights 19-291, 19-293, and 19-295. These water rights are listed as Pending Adjudication Claims and there is not any basis for these water rights. The Bureau of Land Management intends to officially withdraw the water user claims for these water rights if this new change application is approved.
